

Pennsylvania State Police Selects Walther PDP as Official Duty Handgun

FORT SMITH, Ark. (February 8, 2024) – [Walther Arms, Inc.](#), in conjunction with their law enforcement and sales partners, Eagle Point Guns and Keystone Manufacturer’s Representatives, is proud to announce the Walther PDP as the official duty weapon of the [Pennsylvania State Police](#).

After rigorous testing alongside Walther’s major competitors, the [PDP Compact](#) and [PDP F-Series](#) were selected due to the capabilities, features, and increased proficiency this customized firearm brings to those carrying it. Every handgun will be direct milled with the Aimpoint ACRO to ensure each law enforcement officer is confident and comfortable with their duty pistol.

“As one of the largest law enforcement agencies in the country, we are honored to have the Pennsylvania State Police select the Walther PDP as their new duty handgun,” said Rick DeMilt, director of law enforcement and military sales for Walther Arms, Inc. “Providing their officers with the PDP’s unmatched versatility and dependability ensures they have the ideal weapon to focus on the situation at hand, when timing and responsiveness are everything.”

The partnership between the Pennsylvania State Police and Walther Arms means effective, precise, and capable protection throughout the state. With revolutionary ergonomics, SuperTerrain Slide Serrations, Performance Duty Trigger, and the Aimpoint ACRO direct milled to the slide, the PDP compact and F-Series models are world-class ingenuity for pistols.

About Walther

"It's your DUTY to be READY" is a message of sincerity that Walther must build the best performing firearms. It is a message to every shooter who understands the importance of firearms safety and the inalienable right to bear arms. It is a message to clearly and concisely show that Walther is doing everything in its power to support shooters everywhere with not just the absolute best in firearm innovation and performance but also access to the best training and informative firearms community. History has shown Walther's dedication to this message, beginning in 1886 and continuing today, with the innovative spirit that builds off the invention of the concealed carry gun by creating duty grade weapons such as the PDP and world-class rimfire products such as the P22 and WMP. Walther will continue its long tradition of technical expertise and innovation in the design and production of firearms to meet the demands of any customer. Excellent service and superior quality will continue to be benchmarks of Walther's success.
